

Program Overview and Target Audience

This program is designed to offer a broad-based update on traditional techniques as well as new ideas in the field of orthopedic surgery.

It is directed toward practicing orthopedic surgeons, orthopedic residents and fellows, and allied health professionals.

Program Objectives

- Understand the optimal timing for return to competition after ACL surgery
- Understand how patient risk factors correlate with complication rates after total joint surgery
- Understand what methods of resident education are most effective and what tools can be used to assess resident learning
- Analyze contemporary literature and best practices to determine which surgical or non-operative treatment is most appropriate for a given physiological age and activity level of individual patients

AMA Credit Designation Statement

The New England Orthopedic Society designates this live activity for a maximum of 10.5 *AMA PRA Category 1 Credits™*. Physicians should claim only credit commensurate with the extent of their participation in the activity.

Accreditation Statement
